ICLIX (PTY) LTD FIBRE Terms and Conditions

Fibre Broadband Access is supplied as a best effort service by the Fibre Last-Mile provider. Areas marked as available on the map may not be Fibre ready at your particular address due to a number of factors. Should we not be able to proceed with your application we will advise you thereof. Installations are typically completed within +- 30 days, this timeframe is however not guaranteed.

Fibre installations are subject to an installation and connection fee. Additional fees may apply should trenching be required to complete the installation, Iclix (Pty) Ltd will make any additional charges known to the client and the client will be required to accept or reject these charges before the order is completed. Please note that should the service be ordered and the incorrect address is supplied, the client will be responsible for all charges relating to the order placed at the incorrect address.

An additional fee will be charged for re-grading the speed of a fibre line as well as outdoor transfers (new address) and transfers between Service Providers. Cancellations for fibre lines are only submitted at the end of each month, the cancellation request must be submitted via **Email to relevant account department** at least 30 calendar days before the cancellation date, the earliest available cancellation date will then be confirmed by return email. Transfers between Service Providers are handled in the same manner as a new installation and are typically completed within +- 30 day, this timeframe is however not guaranteed.

An additional fee of up to R2 000.00 may be charged on faults logged which are found to be caused by faulty hardware or user error. This amount will be charged to your account once we are advised of the charges by the Supplier.

By completing the order, it is deemed that consent has been received from the landlord, owner or body corporate for the installation of the service.

The available capacity on the network is shared between all users of Iclix (Pty) Ltd bandwidth. Acceptable Usage Policies are attached to Uncapped Services. Capped services whilst the majority of the time will remain untouched may be shaped or throttled should the demand on the network and available capacity be affected. Capped services will generally receive priority through-put on our network provided there is no rise in demand or extenuating circumstances affecting the performance of the network.

TERMINAL EQUIPMENT

- Unless purchased outright, Terminal Equipment always remains the property of Fibre Last-Mile Provider and/or the ISP.
- Fibre Last-Mile Provider and/or the ISP will provide Terminal Equipment with original manufacturer's warranty.
- Subscriber shall bear the risk of damage to, or loss of, Terminal Equipment installed at a Subscriber's premises and shall be liable to pay to Fibre Last-Mile Provider and/or the ISP on presentation of invoice the reasonable cost of repair of Terminal Equipment or, if repair is not feasible, the actual replacement cost.
- If repairs or replacements have to be done on Terminal Equipment that is not covered under manufacturer's warranty or that has been damaged by anybody other than Fibre Last-Mile Provider and/or the ISP, then in addition to the paragraph above Fibre Last-Mile Provider and/or the ISP shall charge its full installation rate for the call-out to repair/replace faulty Terminal Equipment.

UNCAPPED SERVICES

Uncapped services are designed and intended for personal use only. The Uncapped Services may not be repackaged/broken down and sold to 3rd parties, may not be used to provide network services like hosting/mail/ftp/backhaul for Wifi/internet cafes and other networks. The use and/or exploitation of our uncapped services for commercial use is strictly prohibited. (We have very competitive Per Gb pricing for commercials).

The Acceptable Use Policy for the Soft-Limit Uncapped, Premium Uncapped and Business Uncapped can be found below. By accepting the Terms and Conditions, you also agree to the afore-mentioned AUP. All uncapped services are billed within a calendar month (1st to last day of every month). Your proof of payment is to reach us before 5pm on the last day of the month to prevent service interruption on the 1st of each month.

It is our goal to protect the integrity of our network, in order to provide the best possible internet experience for all of our clients using all Uncapped services and as such we reserve the right to manage uncapped users who are deemed to be causing an unusually large burden on the network. We are committed to managing our network in a way that allows us to provide all users with the best experience possible, however we cannot guarantee that the allocated capacity will always be available.

Soft-Limit Uncapped / Premium Uncapped

Soft-Limit Uncapped services are best suited for average home users who make little to no use of high bandwidth services such as NNTP, Peer-to-Peer and Torrents (and similar but not limited to). Soft-Limit Uncapped services are proactively managed by the Iclix (Pty) Ltd Protocol Manager.

Premium Uncapped services are better suited to more advanced users, and are managed proactively by the Iclix (Pty) Ltd Protocol Manager.

Premium Uncapped (Fibre & DSL) - Iclix (Pty) Ltd Protocol Manager

The Iclix (Pty) Ltd Protocol Manager is used to provide all uncapped users on our network with the best possible internet experience. During peak network times, we give priority to real time services (such as browsing, email, streaming etc), high bandwidth services such as NNTP, Peer-to-Peer and Torrents (and similar but not limited to) will receive less priority.

Clients deemed to be continuously uploading/downloading or using the service for unattended automated processes will be managed by the Iclix (Pty) Ltd Protocol Manager. The Iclix (Pty) Ltd Protocol Manager may be used to manage clients by rate limiting (slowing down speed) and limiting or preventing service using specific protocols or ports. We reserve the right to use the Iclix (Pty) Ltd Protocol Manager to manage the integrity of our network should network capacity not be available at any time, we assure our clients that we will do this in a responsible manner should the need arise. Any user that is found attempting to bypass or circumvent the Iclix (Pty) Ltd Protocol Manager will be suspended and could have their service cancelled.

Soft-Limit Uncapped (Fibre & DSL) – Iclix (Pty) Ltd Protocol Manager

Soft-Limit Uncapped services are managed according to the last 7 days usage projected to 30 days as well as the available capacity on the network at all times.

There are predefined thresholds set and when exceeded the account speed will be managed down to a maximum of 50% of the account speed. Should the demand on the network exceed available capacity these thresholds may be managed more aggressively by the Iclix (Pty) Ltd Protocol Manager and differ to the table below.

The thresholds per account speed are:

Speed	Threshold
8 Mbps	100 GB
10 Mbps	200 GB
20 Mbps	400 GB
40 Mbps	750 GB
50 MBPS	850 GB
100 Mbps	1000 GB
200 Mbps	1000 GB
500 Mbps	2000 GB
1 Gbps	3000 GB

Any user that is found attempting to bypass or circumvent the Iclix (Pty) Ltd Protocol Manager will be suspended and could have their service cancelled.

Priority+ Uncapped (Fibre & DSL)

Priority+ Uncapped is a broadband uncapped service whose data is prioritised for Premium Users based on available network capacity where high priority is required for typical protocols. Priority+ Clients will also receive priority support service.

Clients deemed to be continuously uploading/downloading or using the service for unattended automated processes or non-typical protocols (such as but not limited to NNTP, Peer-to-Peer, Https Downloading and Torrents) will be managed by the Iclix (Pty) Ltd Protocol Manager. The Iclix (Pty) Ltd Protocol Manager may be used to manage clients by rate limiting (slowing down speed) and limiting or preventing service using specific protocols or ports. Iclix (Pty) Ltd reserves the right, to at its discretion manage non-typical protocols such as but not limited to NNTP, Peer-to-Peer, Https Downloading and Torrents and/or rate limit service speed.

We reserve the right to use the Iclix (Pty) Ltd Protocol Manager to manage services in order to protect the integrity of our network according to the available network capacity, we assure our clients that we will do this in a responsible manner should the need arise.

Any user that is found attempting to bypass or circumvent the Iclix (Pty) Ltd Protocol Manager will be suspended and could have their service cancelled.
